Anyone wishing expert and reliable tuning done or wishing to purchase a fine, high grade piano will do well to call and look over our stock. S. T. ALLEN, Nevada State agent, for Kohler & Chase, located at Spindler's candy store, first door west of Post Office. 19jan1w

The trouble lies in the fact that too few women enjoy perfect health and strength. The special womanly organism. A woman who is not well and strong locally cannot enjoy good general health. Dr. Pierce's Favorite Prescription cures all weaknesses and diseases of the delicate and important organs concerned in womanhood and motherhood. It is the most perfect and scientific remedy ever devised for the peculiar ailments of women. It restores womanly power, strength and virility. It tones and builds up the nerves which have been shattered by suffering and disease. It corrects all irregularities and derangements and stops exhausting drains. It restores weak, nervous invalids to perfect health. It is intended for this one class of disorders and is good for no other. It is the discovery of Dr. R. V. Pierce, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. No other known medicine can take its place. "I have been troubled with female weakness that my physician called catarrh of the womb," writes Miss Tean Cooper, of Catfish, Clatsop Co., Pa. "I doctored for it and did not get better. At last I commenced taking Dr. Pierce's Favorite Prescription. I got better right along and before I had taken four bottles was cured. I recommended the 'Favorite Prescription' to a friend of mine. She has been using it and thinks it is wonderful."

Constipation is a little illness that if neglected builds a big one. Dr. Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative and one a mild cathartic. They never gripe.

Saved Two Cents.
Mr. Pner—You expect to be in San Francisco next week? By the way, you know where my aunt out there lives. I have just written a letter to her. Would you mind delivering it some day as you pass the house? Mr. Pner's friend—No; but I might forget it. I think I'll just put a stamp on it and drop it into the first letter box.

Mr. Pner—All right. I don't care how you get it to her.—Chicago Tribune.

The Great Debate.
When the uncertainty had become well nigh intolerable, Science ventured to go to the Serpent directly. "Is it or is it not a fact, O Serpent," asked Science, "that you swallow your young when you are attacked?" "Well, I always try to hold my own," replied the Serpent modestly. It is true, but evasively withal. And so the bitter controversy wages on.—Detroit Journal.

Touched.
"I suppose you were touched when your wife gave you that \$50 easy chair?" "Of course! How else do you imagine my wife could come by \$50?"—Detroit Journal.

In Belgium at 6 o'clock, evening, you hear from every cottage the voices of father, mother and children and servants saying their prayers, and it is much the same at noon.

NEWLANDS' SPEECH ON THE MONEY QUESTION.

The JOURNAL a few days ago received a copy of Hon. Francis G. Newlands' speech, made in the House of Representatives December 12th last, upon a bill entitled "To define and fix the standard of value to maintain the parity of all forms of money issued or coined by the United States, and for other purposes." Other purposes not mentioned are a contraction of the money currency at the will of the national banks by giving them absolute control of the money of the country, giving power to organized capital, through the money system of the country, to control industries and the industrial people of the country.

Mr. Newlands, while reviewing the contention between gold standard advocates and bimetalists, made a statement of the causes that establish the contention of bimetalists to be the only correct money theory, which includes free coinage of gold and silver in unlimited quantities, as they are taken from mines containing these metals, which coinage would place the country upon a metallic money basis, which is a true and correct theory and the only reasonable basis upon which a stable monetary system could be made.

The check or credit system is foreign to the purpose in money and commercial usage to give stability to money exchange interests demanded by the industrial and commercial interests of the world. The claim made by gold standard advocates that gold is sufficient for exchange purposes because of an increased output from the mines of the world, establishes the contention of bimetalists for plenty of money, because the continued increasing demand for more money as commerce expands has consumed gold as speedily as it was given to the markets and the demand continues for more money.

Mr. Newlands reviews the panics of 1873 and 1893 and the causes that produced them. The cause of the panic of 1873 was a continued decrease in the gold product of the world and the demonetization of silver in that year. The causes for the panic of 1893 was the repeal of the Sherman act by Cleveland and the passage of the Wilson tariff act.

While Mr. Newlands gives credit to Congress for the repeal of the Sherman act and the passage of the Wilson bill, the exact truth is that Cleveland caused the work to be done by Congress.

When McKinley was elected to the presidency, Republicans were of the opinion that matters would change for the better, but the blanket that Cleveland had placed over the country and its industries continued to cover the land. The Dingley tariff act was passed, which was claimed would remove the evils that were upon industry and commerce, but no relief came to the people and the depression continued till McKinley (as is believed by the editor of the Gazette) caused good crops in the United States and bad crops in other parts of the globe, which caused money to flow into the United States to the relief of the country, then bank credits increased and gold flowed into the treasury.

During this panic and in all panics the deposits in the banks had been largely withdrawn which caused the banks to call in their loans which brought the crash that involved the industries of the country. Values depreciated and men who were possessed of large property interests were closed out and given an opportunity to again begin the struggle of life.

Mr. Newlands when presenting the position of bimetalists said their claim is, that the world needs all the gold and all the silver that has been and will be produced to meet the demands of the industrial and commercial world. That the vital question before the world is a sufficient supply of money which will be better supplied from two sources than from one. That a raise in prices increase prosperity and plenty of money cannot be had from one source of supply. That the claim of bimetalists is established to be correct by the increase of money in the country from good crops and large sales abroad. That plenty of money is the key to success and all it includes.

The metallic stock of silver in the country for use is about six hundred millions and the stock of gold is about nine hundred millions and the bill before Congress provides that the six hundred millions of silver shall be redeemed in gold by the Treasury under the head of exchange, which will have

the effect to reduce the metallic circulating medium of the country to nine hundred millions which will be disastrous to industrial interests.

We would like very much to give a more extended review of the many causes and principles presented and discussed by Mr. Newlands in his masterly effort, but space will not allow a more extended review at present. He concludes by making an arraignment of the Republican party and its policy of contraction of the basic money of the country, declaring its first effort at contraction to have been made shortly after the close of the war by reducing the greenback circulation and issuing interest bearing bonds for the greenbacks called in, which policy of contraction it has continued and is at present engaged in reducing the circulating money medium of the country which, will end in calamitous conditions to the people.

WHAT DOCTOR STUBBS SAYS.

The JOURNAL is in receipt of a letter from Doctor Stubbs, from which we take the following extract:

"I refer, viz., to your charge that a corporation, or, in other words, the Southern Pacific company, has a hand in the affairs of the University and has had something to do with Professor Jackson in his resignation. What has occurred to change your present attitude towards the President of the University, it is impossible for me to explain to myself. I must wait for further light. This feature of the attack is so malicious that I feel justified in meeting it in 'a' only way that an honorable man can meet such attacks, viz., by action in court, that will necessarily bring all the facts to light. I therefore have asked Judge Cheney to see whether there is cause for legal action in this particular feature of your newspaper attack."

If the JOURNAL is correctly informed, Cheney has been looking up suits against the JOURNAL for some time. Should he bring a suit against the JOURNAL he will not draw the jury panel or be on the bench to try the case.

The Doctor was evidently very much out of temper when he wrote the above extract, as his name has not been in any way connected with the Southern Pacific company, except it may be inferentially. Should it be true that the JOURNAL has connected the name of a citizen of Nevada with the name of the Southern Pacific company, it would not be malicious, defamatory or libelous in this State, because it is deemed honorable to be so identified.

BOER WAR.

The expected battle between the British and the Boers is in progress. There is nothing decisive on either side. The British under General Warren having made some advance on the Boer's right flank on Saturday after a hard day's fighting. The progress made by Warren was by taking two ridges that were occupied by the Boers in front of their main position.

The loss of the British in killed and wounded is reported at three hundred. It is claimed that the Boer loss was large. The Boer position forms a right angle, opposite to the point of the angle is where General Buller is stationed with a large force.

Should General Buller's order, "No turning back," be maintained it is a question how many men will die in battle before it is lost or won.

Mr. and Mrs. L. T. Stephenson of Vinton spent yesterday in town.

Earth to Earth.

The body of little Edna, daughter of Mr. and Mrs. H. P. Brown, was consigned to its last resting place in the Odd Fellows' cemetery yesterday afternoon.

Funeral services were held at 2 o'clock at the family residence, 407 Fourth street. Rev. F. Vernon Jones officiated. The Congregational choir furnished the music. Among the friends who were present were the members of the order of Rebekahs.

Seeds, Seeds, Seeds.

Congressman Newlands has received his quota of seeds for distribution in the State, and will send some to any one desiring them. Address all requests for seeds to Francis G. Newlands, Washington, D. C., House of Representatives.

Very sincerely yours,
Jan 24/00 FRANCIS G. NEWLANDS.

for White Pine to hear the cases of "whisky to Indians."

A partial cleanup at the Chairman mill this week proves that the present method is perfectly adapted to working the ore, the returns tallying with the assays.

HUMBOLDT.

It is reported that Col. Lows has struck a large body of good ore in the Copper King mine in Cottonwood.

Rabbit Hole will produce a large quantity of sulphur this year.

Robert Borland, an old resident of Humboldt county, died recently at Napa, Cal.

Dr. Williams has resigned as postmaster at Lovelock, the result of quibbling and squabbling over the manner in which the office has been conducted.

During the month of December 216 carloads of cattle were unloaded for feeding at Lovelock.

The trial of Vic Bouton on the charge of cattle stealing has been set for February 27.

A proposition is on foot to build a town hall at Lovelock. A company will be formed to raise the money.

Persians Love Mirrors.

Persia is the ideal place for a looking glass peddler to live and move and have his trade, for the Persians are as fond of the shiny reflectors as are savages of beads. Every year immense numbers of mirrors of all sorts and kinds are shipped into the country of the shah. Germany, France and Belgium furnish most of the supply. In addition to having a fondness for seeing themselves as looking glasses show them the Persians know no more pleasing parlor decorations than brilliant mirrors in gilt frames. Some of the Persian drawing rooms are so completely hemmed in by great pier glasses that visitors often become bewildered and try to walk through the glasses down the long aisle that seems to stretch in front. So bumped noses, knees and toes are not uncommon in that land of oriental splendor and mystery.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land which is not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, coughs and colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, bronchitis, hoarseness and all diseases of the throat, chest and lungs are surely cured by it. Call on S. J. Hodgkinson, Druggist, and get a trial bottle. Regular size, 60 cents and \$1. Every bottle guaranteed or price refunded.

The Washoe Lunch Counter has firmly established its reputation in Reno as a first class eating house. At any hour of the day or night you are assured a hearty meal at Block & Clausen's.

My son has been troubled for years with chronic diarrhoea. Sometime ago I persuaded him to take some of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After using two bottles of the 25 cent size he was cured. I give this testimonial, hoping some one similarly afflicted may read it and be benefited.—THOMAS C. BOWEN, Glenbrook, O. For sale by Wm. Pinniger, Druggist.

As a cure for rheumatism Chamberlain's Pain Balm is gaining a wide reputation. D. B. Johnston of Richmond, Ind., has been troubled with that ailment since 1862. In speaking of it he says: "I never found anything that would relieve me until I used Chamberlain's Pain Balm. It acts like magic with me. My foot was swollen and paining very much, but one good application of Pain Balm relieved me. For Sale by Wm. Pinniger, Druggist."

Red Hot from the Gun
Was the ball that hit G. H. Steadman of Newark, Mich., in the Civil War. It caused horrible ulcers that no treatment helped for 20 years. Then Bucklen's Arnica Salve cured him. Cures cuts, bruises, burns, boils, felons, corns, skin eruptions. Best pile cure on earth. Twenty-five cents a box. Cure guaranteed. Sold by S. J. Hodgkinson, druggist.

Wanted—A Helpmate.
A young man who has a good business established in Reno wishes to make the acquaintance of a respectable young lady. She must be a house-keeper and able to help a little in the business. Some means are required with which to enlarge the business, which is steadily improving. For particulars inquire at this office. 17ja8t

Photograph.
Wm. Pinniger has just received a lot of fresh photo printing paper, also the new sepia paper, which is easily manipulated. You can now secure six exposures of film on a roll as well as twelve. See Eastman's new folding pocket kodak. He carries all photo supplies necessary for amateurs. jan16

Only 25cts. per box. Sold by S. J. Hodgkinson Druggist.

MINING DEAL
ARRANGED

C. C. Wallace and Associates Bond the Recently Discovered Copper Mines North of This City.

C. C. Wallace, O. A. Hamlin and associates, the gentlemen who recently acquired Captain Griffin's Tri-Metallic mine in Antelope, have made another venture.

They have secured a preliminary bond upon the Copper King and Mizpah claims that form part of the group recently located on the copper croppings two miles northwest of this city.

This is the carbonate proposition found by Messrs. Brown, Norcross, Cutts and others.

The consideration named in the bond is \$15,000. First payment to be made on February 15. After this date the bonders agree to keep at least four men constantly employed developing the property. A long tunnel will be run to tap the ore body below where the values have been partially leached out.

Mr. Wallace whom we damn as a politician but must admire as a mining man, is said to have his eagle eye on one or two other Washoe county propositions.

Notice to the Public.
Any one who wears underwear socks, overshirts, etc., and is contemplating a change, would do well by making a call at A. Nelson's furnishing goods store, Virginia street, where he will find the most complete line of furnishing goods of all kinds in Reno, sold at the lowest living prices.

He carries all sizes of Hamilton Carhart's engineers' overalls and coats, Levi Strauss & Company's overalls, and Teitel, Wheeler & Matter's overshirts and underwear. The above goods speak for themselves.

All the latest patterns of golf and winter caps, and the up-to-date styles in hats always on hand.

He also carries the most complete line of smoking and chewing tobaccos, cigars, cigarettes, smokers' articles, etc., on the coast, which he sells at wholesale and retail.

Free employment office in connection with the store.

A Boxing Instructor.
The Reno Wheelmen's club is to have a boxing instructor. E. M. Ringer, the young man who made such a good showing at the entertainment last week, has made a proposition to the officers of the club that will probably be accepted.

It is proposed to organize a class and give instructions three evenings of each week. A very small fee will be charged. This will do away with the necessity of the club paying a salary to a teacher.

Mr. Ringer will undoubtedly prove a good instructor, as he is an enthusiastic as well as a scientific boxer. He was at one time assistant boxing instructor of the Seattle Athletic Club.

News of Ely.
Thomas Wren, who has returned from Ely, gives the JOURNAL the following news from this flourishing mining camp:

The Chairman is running full handed.

The Robust is putting on all the new men they can possibly find room for.

The Paula are driving work ahead on the Brooks, Texas and Pilot Knob mines.

Assessment work on all the valuable claims has been performed and the affidavits filed as required by law.

Everything points to a very prosperous year for the camp.

Brave Men Fall
Victims to stomach, liver and kidney troubles as well as women and all feel this results in loss of appetite, poisons in the blood, backache, and tired, listless run-down feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: "Electric Bitters are just thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me new strength and appetite than anything I could take. I can now eat anything and have new lease on life." Only 50 cents at S. J. Hodgkinson's Drug Store Every bottle guaranteed.

Organization Completed.
A meeting of the members of the Owl club was held Sunday and reorganization accomplished by the election of the following officers:

Frank Coffin, president; George Robinson, secretary; T. R. Biggs, treasurer; Will Merklinger, C. R. Richardson and Dr. Coffin, dance committee.

A meeting will be held at the Riverside hotel this evening for the first event of the season.

On Duty Again.
Capt. Linscott is around again after being laid up for several days with malarial fever. He had a severe attack while in the Philippines and has never fully recovered from the effects of it.

Closed Down.
The Electric mine at Arabia shut down last week. It is thought that it will re-open when President Barton returns from Boston.

University Notes

First Meeting.
The T. H. P. O. held a jollification in room 6 last evening. The affair was strictly private.

The Philles.
The monthly meeting of the Philomathean Society will be held in the society room Saturday, February 3.

An Artist in Charge.
Illustration work for the Artemesia has been commenced. Lester Merrill has the entire work in charge, which is an assurance that this department will be above criticism.

An Accident in the Shop.
Wright, '08, while engaged in sharpening a chisel in the shop yesterday afternoon, in some manner cut an artery in his right hand. Some of the boys stopped the flow of blood and took him down town, where his injury was attended to.

Yacht Yoking.
'Bireble' Jones is devoting much of his time to Longfellow's works. It is now no trouble for him to give a selection from "Evangeline" or "The Way-side Inn." However he finds the greatest satisfaction, so he says, by reading the first stanza of "The Bridge."

Co-ed Athletics.
The basketball committee held a meeting in the gym yesterday to decide on plans for the season just opening. It could not be learned what they had decided upon beyond the fact that the former coach, Miss Ada Edwards, had been secured and will arrive from Stanford within a few days. The boys have a lively interest in this department of athletics.

Similar Symptoms.
It was reported that Harrington, '08, was suffering with the big head, but investigation proved that he has a bad attack of neuralgia.

Naughty Boys.
Hayes, "naughty one," and Aorse, "naughty, too," went duck hunting Sunday. They have not reported what they caught.

Theatrical Aggregation.
The University Dramatic Club was organized yesterday. Preparations are under way to produce a farce Saturday, February 17. There is an abundance of talent at the school this year and it is anticipated that the club will have a successful year.

Track Matters.
The track committee held a meeting yesterday afternoon for the purpose of discussing plans for future action. A goodly number of students were present and much interest manifested. Manager Sleaf of the baseball team made a short talk to the boys and urged that everyone take an active part in the formation of a team. He spoke of the number of really good ball players in the school and said that if all would work conscientiously the Varsity team this year would be the best in the history of the University. The first game will be played Saturday.

Captain Moorman gave the boys a little fatherly advice on training and incidentally his high hopes for the track team.

For the next four or five weeks most of the work will be done in the gym, after which the boys will be in condition to go into the field.

Messrs. Ganit, Keddy and Stubbs also made a few remarks.

Virginia Troupe Coming.
Final arrangements for bringing the Virginia City troupe to Reno were completed last evening by the Wheelmen's Club.

They will appear at the opera house Thursday, February 8th. A special train will be run from the Comstock. The company is composed of over sixty members, fifty of whom will appear in Reno. It is thought that a large number will accompany the troupe here. Reno will treat them good.

Suits Begun.
The Bank of Nevada has commenced an attachment suit against J. P. Harter. John Wright has begun suit against E. Crane, E. C. Crane, A. G. Stiles, A. E. Howard and R. G. Clow, praying that they be restrained and enjoined from diverting or appropriating any of the one-third of the natural flow of the water in Steamboat creek belonging to plaintiff.
